

YASH AGRAWAL

MIS Executive | Data Analyst

Moradabad, Uttar Pradesh | yashsinghal821866@gmail.com | +91 8218663981

[linkedin.com/in/yashsite](https://www.linkedin.com/in/yashsite) | github.com/yashagrawal821

PROFESSIONAL SUMMARY

Detail-oriented and analytically driven Computer Science undergraduate seeking an MIS role, with hands-on experience building Power BI dashboards and MySQL-based analytical systems. Skilled in data cleaning, data modelling, DAX, and advanced SQL — turning raw, enterprise-scale data into clear, decision-ready business insight. Combines strong technical grounding with structured problem-solving and clear communication to translate data into decisions.

SKILLS

- **Data Analysis & Reporting:** MySQL (Advanced SQL), MS Excel (Advanced), Data Cleaning & Transformation, Report Automation
- **Advanced SQL:** CTEs, Window Functions (RANK, DENSE_RANK, NTILE, LAG), Subqueries, Pareto/Cumulative Analysis, Business Classification Logic
- **Business Intelligence:** Power BI, Data Modelling, DAX (Data Analysis Expressions), Data Visualization
- **Technical Foundation:** C, C++, JavaScript, HTML, CSS, SQL, Solidity, Data Structures & Algorithms
- **Professional Strengths:** Analytical & Creative Thinking, Innovation, Interpersonal & Team Communication, Fast Learner
- **Tools & Keywords:** SQL, MySQL, Power BI, DAX, Microsoft Excel, Data Analysis, Data Visualization, Data Modelling, Data Cleaning, Data Validation, Query Optimization, KPI Reporting, Dashboarding, Business Intelligence, MIS Reporting

PROJECTS

MySQL Supply Chain & Logistics Analysis — github.com/yashagrawal821/MySQL-Supply-Chain-And-Logistics-Analysis

- Built and analyzed an enterprise-scale, fully normalized 10-table MySQL schema spanning lakhs of transactional records across customers, products, suppliers, warehouses, orders, shipments and inventory movements
- Authored 178 structured, production-quality queries across 9 analytical chapters, following a systematic validation → profiling → analysis methodology
- Ran 25+ validation & referential-integrity checks (duplicate keys, orphan records, nulls, date logic) before analysis, then profiled distributions and baselines across every table
- Delivered chapter-wise analysis (customer segmentation, product Pareto/profitability, sales trends, inventory health, supplier dependency, warehouse efficiency, logistics performance) using CTEs, window functions (RANK, DENSE_RANK, NTILE, LAG), and CASE-based classification logic

Power BI Sales Performance Report — github.com/yashagrawal821/PowerBI-Sales-Performance-Report

- Designed a 6-page interactive Power BI report with a polished, business-ready UI across an 8-table data model for end-to-end sales performance tracking
- Authored 30+ DAX measures to deliver dynamic KPIs, trend analysis, and drill-down insights for sales stakeholders

Power BI Healthcare Analytics Dashboard — github.com/yashagrawal821/PowerBI-Healthcare-Report

- Developed a single-page, dynamic dashboard that mimics a live website experience, using bookmarks to navigate 6 distinct report views
- Modelled enterprise-level healthcare data across 11 tables and implemented 40+ advanced DAX calculations for granular, decision-ready analytics

EXPERIENCE

Freelance Data Analyst (Remote) — Independent Client Engagement Jul 2026 – Aug 2026

- Partnered remotely with an early-stage startup founder (sourced via LinkedIn) to clean, model, and visualize business data into a Power BI dashboard tracking core KPIs for leadership decisions

Web Design & Development Intern — Internship Studio

Jan 2025 – Feb 2025

- Learned website design fundamentals and the frontend structure of a webpage, building a working foundation in HTML, CSS, and JavaScript

EDUCATION

Bachelor of Technology, Computer Science & Engineering — IFTM University 2022 – 2026

- CGPA: 8.34

Intermediate — SMT SSD Inter College

2022

- Passed out with 76%

ACHIEVEMENTS

Winner — Maharishi Startup Expo 2.0, Maharishi University, Lucknow Nov 2023

- Secured 1st position among ~25 teams in a Startup Innovation Hackathon; led the team end-to-end
